

## WATCH OUT FOR THESE COVID-19 VACCINE SCAMS:

**COVID-19 vaccines in Virginia are FREE, so any request for money is a scam!**

**No one can jump ahead of the line for any amount of money. If someone offers to do this for you for a fee, it's a scam.**

**No organization should ever ask you for your personal banking information—if they do, it's a scam.**

**Social media contains a lot of false information—so if you see posts offering to sign you up for a small fee, it's a scam.**

Be aware of scammers. Protect yourself, your family and your community by learning more about how to get your free vaccine at **VACCINATE.VIRGINIA.GOV** or by calling **1-877-829-4682**.
